Shri Nitin Gadkari

Hon'ble Union Minister for
Road Transport & Highways,
Chief Patron, Agrovision

Background and Purpose

Laxminarayan Institute of Technology (LIT), Nagpur - a premier institution having obtained the status of university recently - aims to unite industry and academia through **AGROVISION**. Organized under **AGROVISION** umbrella, our two-day conference is dedicated to contributing to the holistic development and economic growth of Agriculture and Food Sectors in Central India. This initiative, guided by LIT, not only provides value-added services to regional farmers but also fuels local economic growth and facilitates employment opportunities for the youth

Product outreach and Marketing

- Special opportunities for Cottage industries to showcase their products (for limited no. of participants only)

Who should attend

- Entrepreneurs
- Existing units in Agro processing looking for expansion
- Start-ups in Agro Processing Sector
- Large progressive farmers, FPO and other aggregators
- Govt. Organizations, R & D institutes, Academia
- Exporters, Technology providers
- Food Processing Companies, and more

Join us at **AGROVISION 2023** and be a catalyst for change in Central India's agri landscape !

Highlights of the Conference

- **Government Initiatives** : Learn about subsidy schemes, incentives, and initiatives from top officials - MoFPI, MSME, and state representatives.
- **Finance Insights** : Gain insights from bankers and financiers about their offerings for the food processing industry.
- **Stakeholder Engagement** : Connect with key stakeholders such as MoFPI, FSSAI, MSME, FDA, AFSTI, CFTRI, NIFTEM, CASMB, IIM Nagpur, LIT Nagpur, bankers, and more.
- **Expert Presentations** : Industry experts with decades of experience will share insights on manufacturing, operational scaling, and setting up food industries.
- **Case Studies** : Explore case studies from successful ventures and startups in the agro-processing sector, with special awards presented.
- **Sessions on Quality Control** : Dive into sessions on quality control, labeling, certification, compliance, safety, hygiene, and packaging concepts.
- **Roadmap Development**: Collaboratively develop a fact-based pathway and roadmap, integrating perspectives from industry leaders, academicians, and government officials. LIT incubation center and experts shall be providing services to the Food Industries during operation stage also.
