

Ninth edition of Agrovision expo from Nov 10

BUSINESS CORRESPONDENT
NAGPUR, SEPT 23

The biggest agricultural expo of Central India Agro Vision would be staged at sprawling Reshmibagh Ground from November 10 to November 13. This would be the ninth year of the expo.

This was stated by union surface transport, water resources and Ganges rejuvenation minister Nitin Gadkari here on Saturday.

Agrovision will be inaugurated by the chief minister Devendra Fadnavis. Vice-president of India, Venkaiah Naidu would be special present on this occasion.

More than 400 national and international companies research institutes, financial institutions, agriculture colleges, agriculture department of State government and service providers would take part in the agrovision. Many companies with new research and latest techniques will showcase their products and technology to the farmers. Many progressive farmers can

directly contact with agricultural experts and entrepreneurs to get more yield from their crops through advance technology.

Every year many workshops are conducted in Agrovision, which open the door of development to many progressive farmers. This year also the main attraction of Agrovision would be livestock pavilion where goats, sheep, cows, buffaloes, hens and many more varieties of hybrid animals would be displayed.

Tips about water man-

agement, dairy business, poultry farming, fisheries, bees management would also be given through workshops in Agrovision to progressive farmers. Similarly, more crop production management and bamboo plantation and business opportunities are the topics that would be discussed threadbare in Agrovision conference to be held at Suresh Bhat Auditorium.

In Vidarbha, dairy business is a golden opportunity for development of farmers. These opportuni-

ties would also be discussed by experts in the conference.

Bamboo plantation is an excellent crop for generating more jobs, invest less and get good bamboo crop through which more job opportunities are created. Opportunities in bamboo plantation in Vidarbha will also come up for discussion, Nitin Gadkari informed.

He further said new innovative research and new concept of agriculture by students and farmers will be selected by Agrovision

Foundation expert committee. ₹1 lakh consolidated aid will be provided to those students and farmers who invented the new technology in agriculture. Those who are interested to invent more can send their new ideas with technical details information Agrovision through e-mail.

agrovisiontnt@gmail.com by September end.

On this occasion, Nitin Gadkari also launched Agrovision app. This app would help farmers for taking part in the expo and also provide agricultural guidance to them.

Those who were present at the media briefing included guardian minister of Nagpur district Chandrashekhar Bawankule, former MP Datta Meghe, MLA from Morshi, Anil Bonde, chairman of Agrovision Advisory Committee, Dr. D. Mayee, convenor Agro Vision, Girish Gandhi, organiser, Ravi Boratkar and Ramesh Mankar and president VED Devendra Parekh.
