Overview

Agrovision completed 15 years of impact in 2025, marking a decade and a half of farmer-centric innovation, knowledge transfer, and grassroots empowerment. What began as a mission to bridge research, technology, and farm realities has now become one of India's most influential agri-development platforms. The 16th edition of Agrovision was held from 21–24 November 2025 at the Rashtrasant Tukadoji

Central India's Largest Agri Summit

Maharaj Nagpur University (RTMNU) Campus, bringing together farmers, agripreneurs, policymakers, corporates, startups, and sector experts from across India. Under the theme "Transforming Agriculture, Empowering Farmers," the 2025 edition reflected forward momentum in AI-driven agriculture, sustainable technologies, citrus regeneration, dairy transformation, and emerging agribusiness opportunities.

Inauguration

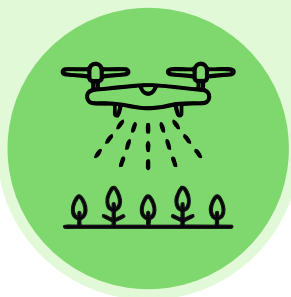

The event was inaugurated by **Shri Shivraj Singh Chouhan**, Hon'ble Union Minister for Agriculture & Farmers Welfare. **Shri Nitin Gadkari**, Hon'ble Union Minister for Road Transport & Highways and Chief Patron, Agrovision, presided over the ceremony.

Also present were **Shri Dattatray Bharne**, Hon'ble Minister of Agriculture, Maharashtra; **Shri Ashish Jaiswal**, Hon'ble Minister of State for Agriculture, Maharashtra; **Dr. Pankaj Bhojar**,

Hon'ble Minister of State for Co-operation, Maharashtra; and **Shri Sudhir Mungantiwar**, MLA, Maharashtra. Senior dignitaries included **Dr. Sharad Gadakh** (VC, PDKV Akola), **Dr. Meenesh Shah** (CMD, NDDDB), **Dr. Madhavi Khode Chaware** (Additional Divisional Commissioner, Nagpur), and **Smt. Komal Shah Bhukhanwala** (Director-R&D & IP, SML Ltd.), along with leading scientists, institutional heads, and industry representatives.

National Expo

The Agrovision Expo 2025 showcased one of the most diverse agri-ecosystems in the country, with 500+ exhibitors covering agri machineries, Precision farming, irrigation, AI, seeds, horticulture, agri-inputs, livestock solutions, food processing, drones, renewable-energy tools, and MSME innovations.

Expo was spread over - **30,000 sq. mts**, **7 theme based mega domes**, open to sky demo zones of **5000 sq. mts**, food courts, and lounge space.

Expo Highlights

- Strong participation from leading farm machinery and agri-tech companies.
- Showcase of alternate-fuel and energy-efficient tractors, drones, precision irrigation tools, and predictive farming platforms.
- Dedicated pavilions for startups, incubators, MSMEs, and PMFME - creating direct pathways for agri- entrepreneurs.
- Extensive participation from women self-help groups, dairy cooperatives, horticulture clusters, and FPOs.

Key Exhibitor Feedback

Smt. Komal Shah Bhukhanwala
Director – R&D & IP, SML Ltd.

“Agrovision is an important platform where farmers, industry, scientific institutions and government bodies come together. The challenges shared here highlight why this model should extend beyond Vidarbha to other regions of the country. Understanding local needs and connecting farmers with the right solution providers is essential, and Agrovision makes that possible.”

Vilas Shinde
Chairman, Sahyadri Farmer
Producer Company, Nashik

“I have been visiting Agrovision for four years now, and every year I see farmers' interest and participation grow. The platform helps them understand the science behind modern agri-engineering and adopt better practices with confidence. The work led by Shri Nitin Gadkari and the Agrovision team is making a meaningful contribution to farmers' progress.”

Sachin Rajmane
Zonal Sales Head (West region),
Escorts Kubota Ltd.

“Agrovision has always been a strong platform for us, and this year we launched our new 42 HP model here on the first day. The response from farmers - from Vidarbha, MP, Telangana has been exceptional. We recorded 57 bookings within the first three days of launch. We value the opportunity Agrovision creates by bringing companies and farmers together to improve productivity and promote reliable

Dr. Kailash Nehara
Manager, DCM Shriram

“Agrovision gives farmers all the solutions they need under one roof-from new technologies and crop-protection kits to practical guidance-and the response at our stall shows how eager they are to adopt better cotton, wheat and gram varieties. It's a strong platform that is truly benefiting growers across Vidarbha and Marathwada.”

Workshops for Farmers

Agrovision's workshops remain its most practical and result-oriented component. At this year's 16th edition, Agrovision conducted **42 workshops** featuring **90 experts**, providing demonstrations, hands-on learning, and farmer - scientist interactions across diverse subjects.

Some of the most popular workshops

- Citrus production & processing
- Dairy : Fodder Management New Technology and Processing
- Application of AI in Agriculture
- Startups in Agriculture
- Oilseed cultivation, honeybee integration & pollination
- FPO strengthening & digital agriculture models
- Organic & Natural Farming Vegetable Export
- Sugarcane, banana, turmeric, ginger, and soybean best practices
- Sericulture, floriculture, bamboo, and mushroom farming
- Agro Tourism

Announcements & Collaborations

Agrovision 2025 became a hub for transformative policy direction and high-impact sector announcements.

National Citrus Gene Bank – Nagpur

A **Rs 70-crore** National Citrus Gene Bank was announced by **Shri Shivraj Singh Chouhan**, Hon'ble Union Minister for Agriculture & Farmers Welfare, as one of the most significant horticulture investments, strengthening India's citrus genetics, clean planting material, and farmer productivity.

Dairy, Fruit, and Oilseed Investment

Mother Dairy committed to establish integrated Milk, Fruit and Oilseeds processing infrastructure in Vidarbha - a landmark push toward value-addition and rural industrialisation.

ADT Baramati – Agrovision Foundation MoU

A major collaboration with Agriculture Development Trust (ADT) Baramati was formalised to jointly develop agri-entrepreneurship programmes, advanced training modules, AI-enabled agronomy models, and incubation support for rural startups.

Santra: Spain, Israel... via Vidarbha

A comprehensive field-study handbook documenting global best practices in citrus cultivation, adapted for Vidarbha's conditions. The book captures scientific insights, varietal performance, and practical techniques to strengthen the region's orange sector..

10 years of Agrovision Foundation

Unveiled at the hands of the Hon'ble Chief Minister, Maharashtra, Shri Devendra Fadnavis and Shri Nitin Gadkari, this commemorative volume captures Agrovision Foundation's 10 year journey and evolution of Agrovision over 15 years, its impact on farmers, and its role in shaping modern agriculture in Vidarbha and Central India.

Leader Speak

Shri Nifin Gadkari

Chief Patron, Agrovision
Hon'ble Union Minister for Road Transport
& Highways, GoI

"Vidarbha must no longer be known for agrarian distress but for innovation, prosperity and world-class agricultural output. With technology, AI, drones and clean-fuel machines, we can ensure farmers achieve higher productivity and sustainable incomes."

Shri Shivraj Singh Chouhan

Hon'ble Union Minister for Agriculture
& Farmers Welfare, GoI

"We are committed to strengthening citrus cultivation in Vidarbha, and a Rs. 70-crore Clean Plant Centre in Nagpur will provide disease-free, high-quality planting material to farmers. This will change the future of orange growers and improve productivity across the region."

Shri. Dattatray Bharne

Hon'ble Minister for Agriculture
& Farmers Welfare, Maharashtra

"Agrovision provides farmers with the guidance they need to adopt modern practices, use improved varieties, and explore allied activities for more prosperous farming. The Government is committed to encouraging youth participation in agriculture and will actively consider the recommendations that emerge from Agrovision."

Dr. C.D. Mayee

Chairman, Advisory Council,
Agrovision

"AI-enabled crop prediction, drone services and data-driven agronomy are entering the mainstream. The demonstrations and participation in workshops at Agrovision show that farmers are ready to adopt these tools to enhance yields and reduce risk."

Conclusion Note

Agrovision 2025 reinforced its position as a positive force for agricultural transformation. The 16th edition blended scale with depth - combining an expansive expo, practical workshops, policy direction, and future-ready innovations. It marked a milestone in Agrovision's 15-year journey, where technology, value-addition, and farmer empowerment came together on one platform.

As Agrovision looks ahead, its role remains clear : to enable farmers to adopt modern practices with confidence, to nurture agripreneurs and rural enterprises, and to ensure sustainable, high-productivity, technology-driven agriculture.
